

November 20, 2013. Re-Entry Stat

“A deadline is the difference between a dream and a goal.”

Populating the Re-Entry Data Template: Short and Long Term Plans

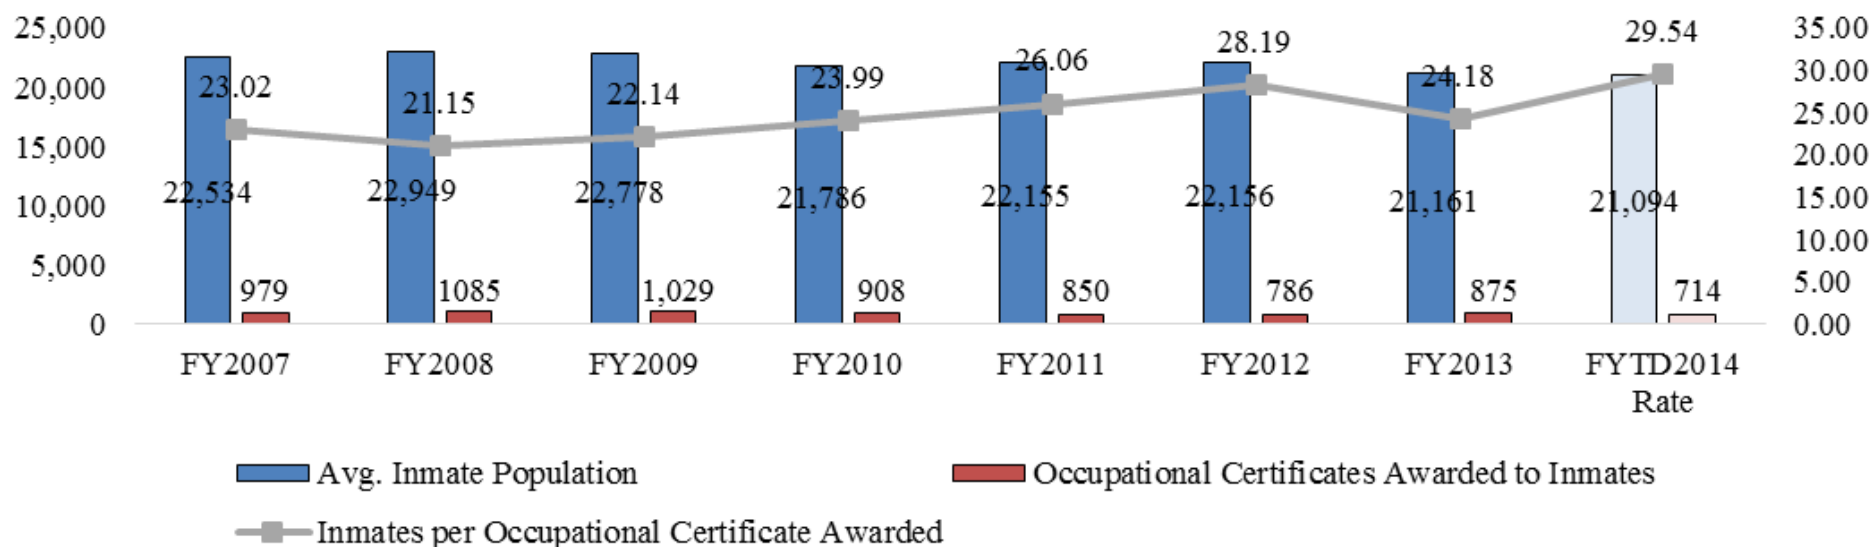

Time frame	Planned Data to Track	Limitations	Next Steps
Short Term (until DPSCS fully implements OCMS)	1. (DLLR) Life Skills classes offered by facility	None	DPSCS was asked on 10/4 to add a field in OCMS to track Life Skills
	2. (DHMH) # of total inpatient substance abuse patients	None are reserved for ex-offenders. DHMH has no set program capacity, so evaluating whether treatment programs are filled to capacity is currently impossible.	DHMH should evaluate the total capacity of inpatient and outpatient treatment, if possible.
	2. (DHMH) # of total outpatient substance abuse treatment patients		
	3. (DHMH) # of substance abuse treatment patients who have been referred from a criminal justice agency	Breakdown by facility is not available, just by type of criminal justice institution.	DHMH was asked on 10/4 to begin tracking these data in the Re-Entry template
	3a. Referred by a prison		
	3b. Referred by a maintaining facility		
	4. (DLLR & DPSCS) Monthly MWE participants who are ex-offenders	None	DLLR has these data already and will add them to the Re-Entry template.
Long Term (when OCMS is fully implemented)	1. (DLLR & DPSCS) For quarterly cohorts of DPSCS releases, the agencies agreed to track how many One-Stop users are employed and how many are not.	At the re-entry metrics meetings on 10/4 and 10/24, the agencies emphasized that these data can only be as good as the SSNs given by inmates. Evaluating employment outcomes for ex-offenders is limited to those who have accurate SSNs - a group more likely to be able to find employment.	DPSCS will provide DLLR with a test list of releases with SSNs, against which DLLR will perform a test wage match.
	2. (DLLR & DJS) For quarterly cohorts of DJS releases, the agencies agreed to track employment status by quarter.		DJS will provide DLLR with a test list of releases with SSNs.

Number of Maryland Inmates who Received their GED and GED Pass Rate, FY10 to FY13

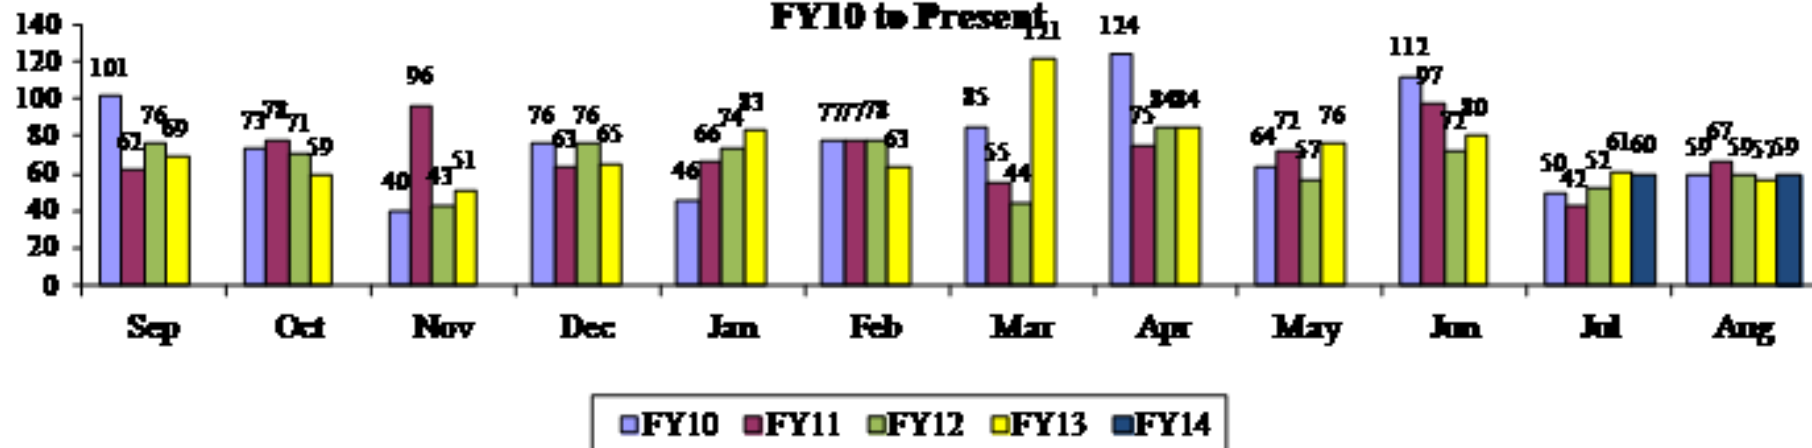

Occupational Certificates versus Inmate Population, FY2009 to Present

Data are through September 2013

Correctional Education Occupational Skills Training Completions (by month), FY10 to Present

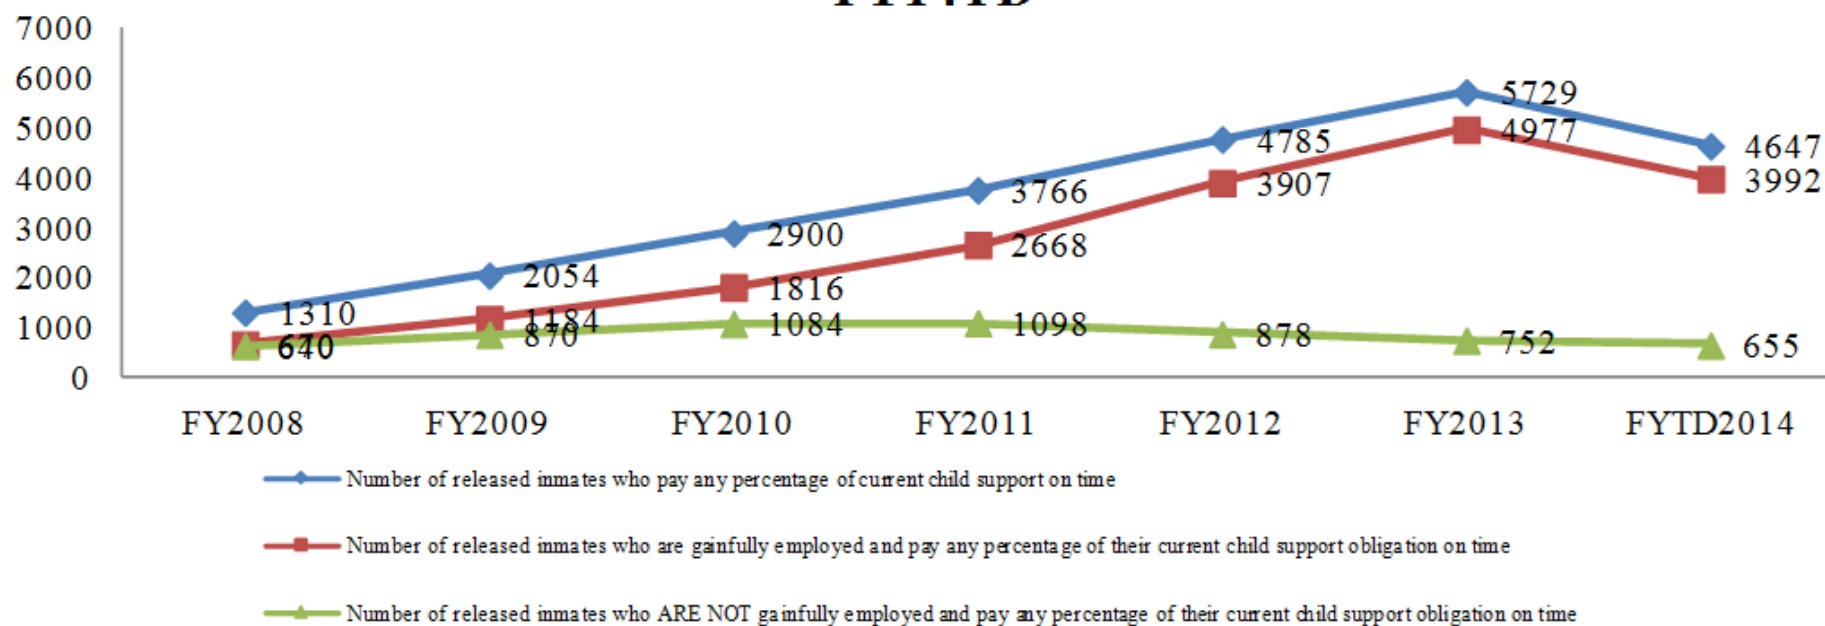

Graph provided by DLLR on 11/20/2013

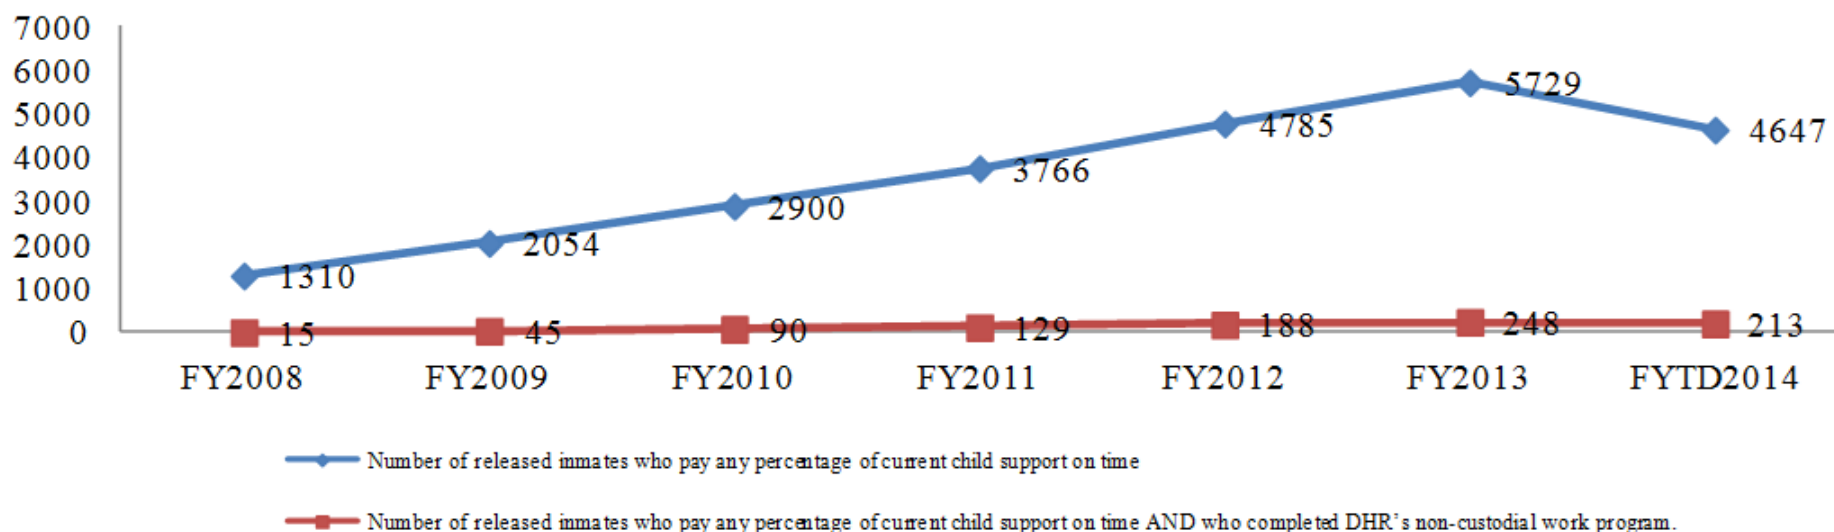

Incentivizing Ex-Offender Hiring (DLLR)

1. DLLR has local bonding staff at each one stop. Their job is to promote the federal bonding program and help ex-offender job seekers complete the application – nobody can be turned down. Local staff give them a letter of eligibility and this will let employers know that they can be insured for the first six months of the employees' tenure.
2. While Maryland has “banned the box” for State job applications, this law has not yet expanded to the broader economy.
3. Other states have stronger expungement laws. Expungement allows minor crimes to be taken off of the books after so many years with no incidents. The new law could state that individuals do not need to disclose an arrest or conviction once it has been expunged. Currently, only minor nuisance crimes are eligible for expungement in Maryland (Criminal Procedure section 10-105.)

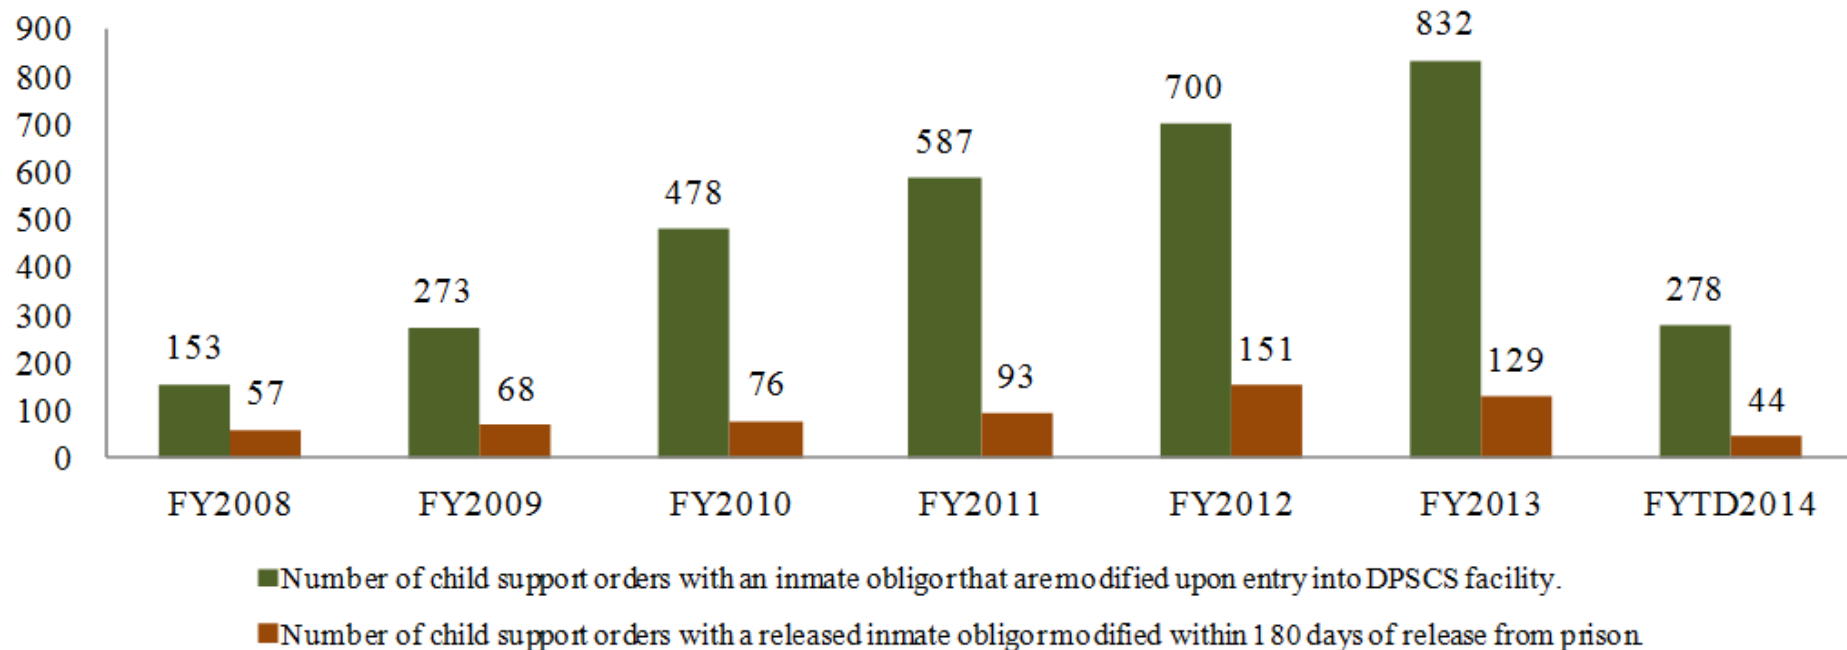

Released Inmates who Pay Any % of Child Support, FY08-FY14TD

Released Inmates who Pay Any % of Child Support and Released Inmates Who Pay and Completed DHR's Non- Custodial Work Program, FY08-FY14TD

Child Support Orders with Inmate Obligor, FY08-FY14TD

Percentage of Current Support Paid per SFY

	Cases where NCP Pre. Incar. with Current Support Due	Paying 0 to 24%	Paying 25% to 49%	Paying 50% to 74%	Paying 75% or more	Pct. Paying 0 to 24%	Pct. Paying 25% to 49%	Pct. Paying 50% to 74%	Pct. Paying 75% or more
SFY2007	28,208	13,885	3,540	3,315	7,468	49%	13%	12%	26%
SFY2008	29,858	14,605	3,689	3,481	8,083	49%	12%	12%	27%
